EXPERIENCE

Software Engineer (Frontend), Edenlife Inc.

Feb 2020 – Present

With the core skill of project management and product autonomy, I built and currently manage the company's internal tool (Customer Relationship Management), which is used in day-to-day operations and management. I also collaborated with a team to build several websites (lead-gen pages) to drive customer acquisition.
[*Vue, Nuxt, IonicVue*]

Product Engineer, NQLB Limited.

Nov 2020 – May 2021, Nov 2021 – May – 2022

I doubled as a UI/UX Designer and Frontend Engineer to drive the creation of intuitive user experiences around different products built by the company. Worked with a team to build and manage features for a state's Tax Management Software.
[*Figma, Vue, Nuxt, Node*]

Software Engineer (Frontend), Init Africa.

Mar 2019 – Jun 2019, Feb 2020 – Jun 2020

I worked with a team of three to build and manage a product (photography application). In a bid to make the product experience seamless, I pinpointed user experience issues to devise targeted suggestions for creating a cohesive user experience.
[*AdobeXD, Vue, Nuxt, SEO, GoogleAnalytics*]

Frontend Developer Intern, Cregital.

Oct 2018 – Mar 2019

I collaborated with a team to develop a website builder, that enables users with zero-code knowledge to build online portfolios. As part of a series of digital products, I built an application that helps generate embeddable email signatures.
[*Vue, Wordpress*]
